New IR Referral Protocols

MGC Providers

The current 'Case Request to IR' lab order will no longer be available and will be removed from any preference lists or user favorites automatically as of Monday, August 15.

Users should place a new 'Ambulatory Referral to IR Clinic' order (REF301) instead. This will include a hard stop for comments where users will indicate procedure information or details about why they are sending patient to IR and any specific lab/specimens needed.

The screenshot displays the 'Order Search' interface with a search for 'AMB REF IR'. The results show a panel for 'Ambulatory referral to IR Clinic' highlighted in red. The detailed view of this order form includes the following fields:

- Class:** Internal Ref
- Referral:** Override restrictions
- To dept:** SMC IR CLINIC
- To dept spec:** Outpatient Interv
- To provider:** [Search]
- Reason:** Specialty Services (Selected: Specialty Services Required, Second Opinion, Patient Preference)
- Priority:** Routine (Selected: Routine, Urgent, Elective)
- # of visits:** 1
- Status:** Normal (Selected: Normal, Standing, Future)
- Expected Date:** [Calendar] (Selected: Today, Tomorrow, 1 Week, 2 Weeks, 1 Month, 3 Months, 6 Months, Approx.)
- Expires:** 3/11/2023 (Selected: 1 Month, 2 Months, 3 Months, 4 Months, 6 Months, 1 Year, 15 Months, 18 Months)
- Comments:** [Text area with icons for undo, redo, help, insert smarttext, etc.]

Buttons for 'Accept' and 'Cancel' are visible at the top right and bottom right of the form.

Note:

Users working the referral work queue should ensure that the 'Referred to:' field indicates SMC IR Clinic. This should appear by default, but if not, users can update accordingly.

Inpatient Providers

Workflow will remain unchanged. Place 'Consult to Interventional Radiology'.

Attention: Do not use this order for the procedures below. Use the respective order set instead.
IR Thoracentesis
IR Paracentesis
IR Lumbar Puncture
