4. Type in a username and a new password for your new account
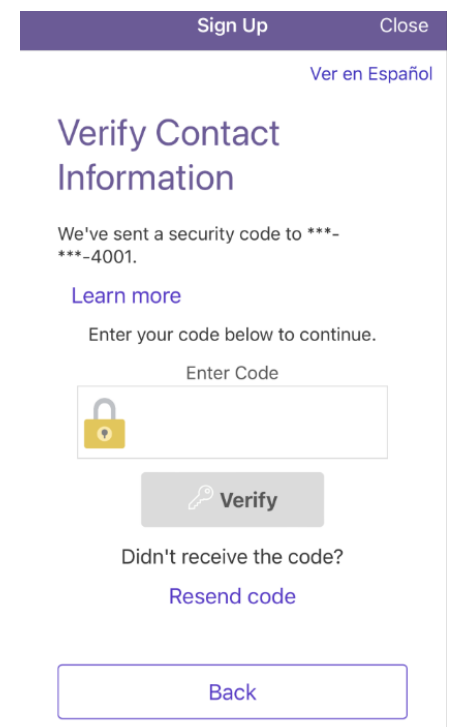

5. Enter your email address

6. Send an activation code to your email address to turn on 2 Factor Authentication

- 2 Factor Authentication keeps your account more secure because you need two pieces of information to access your account: your password and a one-use code emailed to you.

7. When you receive an email with the one-use code, type the code into the MyChart app.

8. If you don't receive an email or text with the one-use code or don't want to turn on 2 Factor Authentication, turn it off by selecting "Turn off 2FA."
